Westchester County Youth Bureau Mission Statement

The mission of the Westchester County Youth Bureau is to fund, monitor and support Westchester County non-profit agencies and institutions that provide programs and services to youth, in order to promote positive youth development and encourage healthy lifestyles.

Westchester County Invest in Kids

In 1993, the Westchester County Invest in Kids initiative was established (under the Westchester County Youth Bureau Charter) as a mechanism for provision of local tax levy funding for expanded use of the positive youth development model in addressing the needs of at-risk youth under the age of 21 in eleven urban communities: Elmsford, Greenburgh, Mount Vernon, New Rochelle, Ossining, Peekskill, Port Chester, Sleepy Hollow, Tarrytown, White Plains and Yonkers. Since the inception of this funding stream, small grants have also been made available to community programs serving at-risk, income eligible youth based upon United States Department of Housing and Urban Development Community Development Block Grant Criteria.

The positive youth development model focuses on provision of opportunities for youth to actively acquire the skills and abilities needed to grow up to be competent, caring and healthy adults. Key elements of this model include:

1. Involvement of youth in leadership and service program planning activities, program implementation and program evaluation
2. Inclusion of parents, religious organizations, and the widest possible diversity of community groups and informal systems in the planning and implementation of youth services
3. Provision of a range of structured activities for youth with diverse interest and needs
4. Provision of opportunities where young people feel supported and safe
5. Community and program focus on asset building by helping young people to acquire:
 - Positive values
 - Social competencies
 - Positive identity
 - Educational commitment
